

# ACKNOWLEDGMENTS

The authors and their associates at the Cascadia Project of Discovery Institute have benefited from the information, ideas, and suggestions of many individuals and government offices. Some of them are identified below. We take full responsibility for this report, of course, but we also want to express our gratitude to all who have given us assistance.

We are especially grateful to have had support from several foundations for the work of the Cascadia Project, including Apex Foundation, the Bill and Melinda Gates Foundation, the Bullitt Foundation, Weyerhaeuser Foundation and the Packard Foundation. Without their generous backing the work could not have gone forward.

Thanks go, also, to the Discovery Institute staff for their hard work in editing, designing and giving valuable input on this report, including Greg Piper, Teresa Gonzales, Steve Buri, Matt Scholz, Holly McQueen and Marshall Sana.

Previous specialized reports — some published, some unpublished — by Discovery Institute/Cascadia Project fellows and consultants formed a good part of the research background for this report. Among them are:

## About the Authors

**Bruce Agnew** is Director of Discovery Institute's Cascadia Project, that promotes binational cooperation between Washington, Oregon and British Columbia, since 1993. He was Chief of Staff for U.S. Representative John Miller from Washington state's First District from 1987 to 1993. Agnew was twice elected to the Snohomish County Council, and served as President of the Puget Sound Regional Council in 1985. For his work in reducing barriers to commerce while supporting enhanced security measures along the Canada-U.S. border, Agnew was awarded the "Order of the Smashed Brick" by Canadian Consul General Roger Simmons in 2001. Agnew received his law degree from UC-Berkeley Law School.

**Bruce Chapman** founded Discovery Institute in 1990 with technology writer George Gilder. In the 1980s Chapman served as Director of the U.S. Census Bureau, Deputy Assistant to President Reagan, and U.S. Ambassador to the United Nations Organizations in Vienna. Chapman has a long career in Washington state public life, serving on the Seattle City Council and as secretary of state in the 1970s. In the 1960s, Chapman was one of the first to call for a repeal of the draft in his book *The Wrong Man in Uniform*. He is a former editorial writer for the *New York Herald Tribune*.
